Positive Information That Communications Have Passed-If Mr. Bryan Has Secret Information About the Insurrection, Why Does He Not Give It to the Government?

The Government in Washington and the National Republican Committee know that Mr. Bryan has received communications from at his Raines law hotel for the required period, the enemies of the United States, from Aguinaido's followers and lieutenants, if not from Aguinaldo himseif. Some months ago a correspondent in Manila sent to this country an interview with Buencamino, one of the insurgent lenders at that time, in which it was said Funston's capture of Aguinaldo's papers did not include the most important which had been sent to the Filipino Junta in Hong Kong for safe keeping.
It was also said by Bueneamino that in these

papers sent to Hong Kong were letters from prominent Americans, including W. J. Bryan nd Carl Schurz. Mr. Bryan denied that he had ever written a letter to a Filipino. He did not deny that he had written letters to Howard Bray, the Englishman who was with Aguinaido and was the brains of the insurrection, nor did he deny that he had written to agents of Aguinaido in Hong Kong or had talked with Agoncilla, the Filipino who came to this country and suddenly left Washington, going to Canada for fear of arrest as a spy or a dangerous person plotting against the Government. Mr. Bryan's denial was evastive. He had not denied that he received letters from the insurgents, but it is known that he has received letters since he became the Democratic candidate for President. There is not the slightest doubt in the world that Mr. Bryan himself or some one directly representing him has received communications from Aguinaldo's followers in the Philippines, said had ever written a letter to a Filipino. He did and some bothless of the intersection of the process of the degree of the process of the process

naido has given to Mr. Bryan any secret information regarding the insurrection, or the plans of those in arms against the Government, it is his duty as an American citizen to hand such letters over to the Government. Mr. Bryan has not done this. He has kept secret the communications he has received from Aguinaldo or his followers and the Government has a right to suspect him of disloyalty, as it suspected those who were found in communication with Spanish authorities during the war with Spain.

There are Federal statutes defining the crime of treason which have been invoked to punish

American citizens for just such offences, but Mr. Bryan is not an ordinary individual at the present time. He is the candidate of the Demo-German-American McKinley-Roosevelt League in Cooper Institute on Thursday evening. Nov. 1, will be called to order by L. F. Thoma, who and opposition to the Government act of acquiring and owning the Philippine Islands is declared by Mr. Bryan and his party to be the paramount issue of this campaign. It was, however, rather starting for the Government officials to receive direct and positive information that Mr. Bryan has been in communication with those who are now in arms against the United States. This is carrying the opposition to the Administration farther than it was ever before carried, so far as known, by an opposition party or candidate for President.

Only One in Wall Street Yesterday and He Wanted Odds of 6 to 1.

But one lot of Bryan betting money was offered in Wall Street yesterday and Thomas Steeley, the man who offered it, said he was not authorized to place it at better than I to 6. The amount, he stated, was \$1,000. McKinley money continued in plenty. Bell & Co. offered to bet \$5,000 to \$1,200 that McKinley will be elected, and J. J. Judge offered to bet \$4,500 to \$1,000 the same way. John M. Shaw said that he had \$1,800 he would like to place against \$2,000 that McKinley will come down to the Bronx with 125,000 plurality. Cooper, Cramp Beadleston offered to bet \$500 to \$400 that McKinl y will carry West Virginia.

The Brooklyn Citizen made a vague announce ent vesterday to the effect that Senator P. H McCarren had invested \$20,000 in bets tha Bryan would carry Kings county. A statement pressed great confidence of a Democratic sweep in the county and especially in his own district where he said "the men, women and children would turn out to encourage Bryan next Mon would turn out to encourage Bryan next Mon-day night, but he had not a word to say about his alleged big bets. He will bet \$20,000 to \$5,000 that McKinley will be elected. He will bet \$20,000 even that McKinley will be elected. He will bet \$20,000 even that McKinley will carry more States than he did in 1896. He will give odds of 3 to 1 that Odell will beat Stanchfield. He will bet even money that McKinley will have \$0,000 durahity in New York State. Then to give Bryan bettors a fittle variety, Mr. Wheelock offers the following. Five to four McKinley carries Indiana; 5 to 4 McKinley carries kansas, 5 to 4 he carries Wyoming and 5 to 4 he carries South Dakota.

In speaking of election betting last night Mr. Wheelock said. "Early in the campaign I was able to get down about \$8,000 or \$10,000 at 2 to 1, 2% to 1 and 3 to 1. For the 18st three or four weeks, however, I haven't been able to place a bet. There has been just one stimulating influence to the Bryan end of the betting this year and that was the Croker money. So long as that money was being placed, the odds on McKinley were kept down. When Mr. Croker's money had been wagered, away went the odds, until now offers of 5 and 6 to 1 are made. All this would seem to indicate that the Croker money was placed simply for campaign purposes. Were it not so, there would be Democratic money was placed simply for campaign purposes. Mr. Croker has a great many things to think about these days. The Tammany chieftain is directing personally the activities of his lieutenants, who are holding meetings in every Assembly district in the city every evening. He is overseeing plans for the demonstration in favor of silver which Tammany is to make on the evening of Nov. 3. Mr. Croker has been informed that there is a good deal of dissatisfaction among Tammany workers and leaders throughout the city over the result of the row between Street Cleaning Commissioner Nagle and President Haffen of the borough of The Bronx in the Twenty-first Senate district Mr. Haffen had a majority of the delegates, but Nagleheld another convention and the Police Board's decision in favor of Nagle's candidate was rendered on Saturday, the last day for getting on the official ballot, at an hour cess. Haffen is said to be much disgusted, and his friends declare that he is going to quit Tammany Hall and that it would not take much to induce him to join in a light against Mr. Croker.

Wherever he went I heard Republicans tell him that they would vote for him although they had never voted for a Democrat before. From the enthusiasm manifested and from what I learned talking to different people throughout the State I have no doubt that New York will be carried for the national and State theets."

New York will be carried for the national and State thekets."

It was announced yesterday that Senator William Fleming Mackey, Mr Croker's candidate for Lieutenant-Governor, had cancelled all his dates for speeches on Long Island and was going up to Buffalo to repair the damage which was done to his fences in Eric county by the friends of the Hon. William F. Sheehan earlier in the month. Mr. Mackey has been notified that he and all of his friends have got to sit up nights with the Hon. Norman E.
